

The NSEC is pleased to announce a 2-day course on

Advanced Pediatric Life Support

This course, accredited by AAP and ACEP has been designed to meet the growing needs of emergency physicians, pediatricians, nurses and all other health care professionals. It provides them with a complete body of knowledge in Pediatric Emergency Medicine.

A textbook on Pediatric Emergencies will be delivered to the candidates prior to the course. Each chapter or “module” of education of this textbook is case based and covers the key elements of assessment, diagnosis, testing, treatment, and disposition. Each chapter also includes references, helpful tables and charts, photographs and illustrations.

The course is conducted in small group discussion format.
